To schedule a medical examination appointment, please contact one of the panel physicians listed above directly by phone and provide them with your immigrant visa case number. Processing your medical examination report will take approximately one to two weeks after your examination. An authorized employee of U.S. Embassy Kuwait City will collect your medical examination report(s) from the panel physician's office. It is not necessary to call the Embassy to check on the status of your medical examination report. Your immigrant visa interview will be conducted even if your medical examination report has not yet been received by the Embassy.

Please note that your medical examination will only be valid for six (6) months from the date of the examination.
